

If you would only like to scan and not record video in this room, continue to step 2.

Step 1 (Optional): Print out the anchor so that it measures 7 inches by 7 inches

and position it so that it is visible in your space

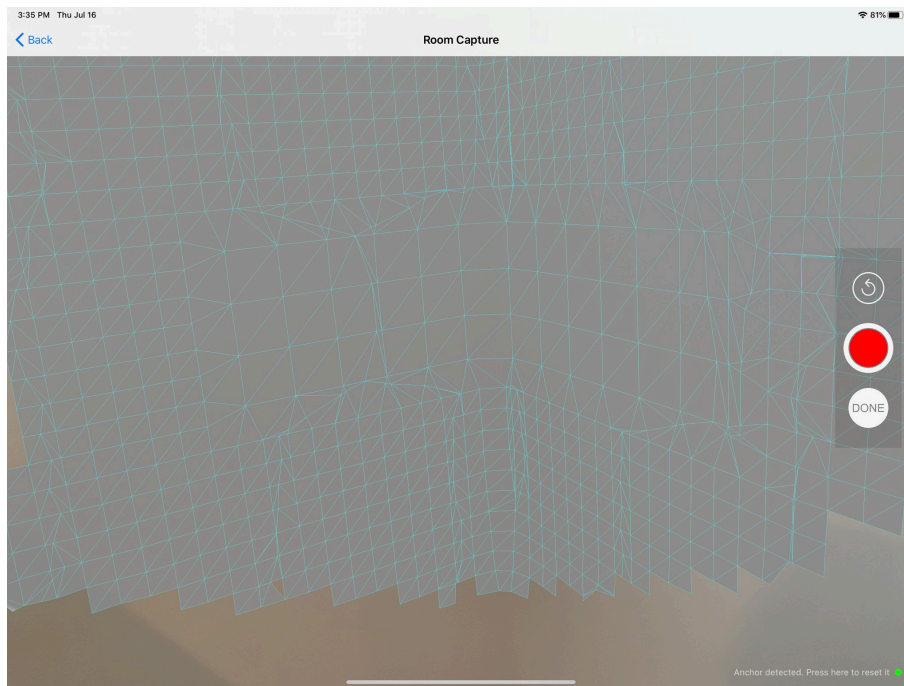

Step 2: Tap “New Project” -> “New Scan”

Step 3: If you followed step 1 and printed the anchor, position your device so that it is visible on the screen and wait for it to be detected

Step 4: Press record and move around your room until the relevant parts have been scanned

Step 5: Click DONE!
